

CSM SERIES PLASTIC CLIPS WITH DIAMOND WHEEL

The wheels inserted in CSM clips have a 6.0 mm diameter guarantee performance and durability. Ideal for all types of cuts: straight, shaped; and all types of glass: flat, laminated, layered, magnetronic.

The diamond hard metal wheels used in the CSM clips allow a precise cut in glass with maximum yield. Ideal for all types of cuts.

Available finishes: (PLA) for monolithic float, laminated and layered glass; (DG) for cutting shapes and thick glass from 8.0 mm to 12 mm; (DSG) for thick glass

The composition of the plastic is formulated for optimum glide and lubrication. Each plastic clip color identifies the cutting wheel angle and the corresponding glass thickness, making it easy to order the clips by color and just add the finish code (PL, DG or PLA) as needed.

CSM with 5,6 or 6,0 mm diameter wheels can be used in tables: Bavelloni, Bottero, Bolla, CMS, GFP Meccanica, Intermac, MacoTec, Hegla, Tuomas. Sold in packages of 10, 20 or 50 pieces.

	Part No.	Finish	Glass Type / Cut Type	Glass Thickness	Color
	D-CSMANT	PLA	Tempered Glass Mirror/ Used by cutting from the plastic side	0.8–1.5 mm	Violet
	D-CSM115		Float / Universal		
	D-CSM118	PLA	Float / Universal	1.5–2.0 mm	Yellow
	D-CSM127	PLA	Float, Pirex / Universal	2.0 mm	Aqua
	D-CSM135	PLA	Float / Straight	3.0 mm	White
			Float / Shaped	1.0 mm	
	D-CSM140	PLA	Float / Straight	4.0 mm	Blue
			Float / Shaped	1.0 mm	
	D-CSM145	PLA	Float / Straight	3.0–6.0 mm	Black
			Float / Shaped	3.0 mm	
			Laminated	3+3–10+10 mm	
	D-CSM150	PLA	Float / Straight	8.0 mm	Brown
			Float / Shaped	3.0–4.0 mm	
			Laminated	3+3–10+10 mm	
	D-CSM155	DG	Float / Straight	8.0–15.0 mm	Red
			Float / Shaped	5.0–8.0 mm	
			Laminated	3+3–10+10 mm	
	D-CSM160	DSG	Thick Glass	> 15.0 mm	Green

Choose a grind according to glass type:

PLA / DG	Laminated or Stratified Glass Wheel Finish: Slightly Rough Finish
PL	Straight or Shape/Curve Cutting Wheel Finish: Regular Grind
DL	Thin and Specialty Glass [Mirrors] Wheel Finish: Semi rough, rough
DS/ DSG	Open Cuts, Thick Glass and Irregular Surfaces Wheel Finish: Rough

When ordering, add the grind designation after the product code.
